The Harmonic Orbit- A Christian Scientific Paradigm of Nature. The “test, reflect, learn, try, and succeed” Harmonic Scale framework.

The Harmonic Orbit Resonance Scale forms the foundation of universal matter and the infinity calendar of life itself. All things exist at a universal singularity point; what many of you know as the dimensional scale of life, or simply as “dimensions.” The Harmonic Orbit is the pinpoint of life, harmony, and solitude.

I theorize that all existence operates within this scale and can enter what I call a “Karmic Orbit” when things fall out of alignment with the natural frequency and life conductor of the solar system.

For example, cats have a specific diet essential to their harmony. As most of us know, pets rely on food to maintain their strength and balance (their Harmonic Orbit). When their diet becomes imbalanced, they may fall ill and lose harmony within their cellular biological systems, particularly in the pre-membrane of the cervical cortex of their digestive tract. This imbalance may cause illness, disrupt normal digestive processes, and even affect basic functions such as eliminating waste at the proper time and magnitude.

When beings fall out of alignment with the Harmonic Orbit; beings meaning all living entities, including pets they risk entering a Karmic Orbit.

In my analogy, within the paradigm of physics and cellular biology, the stomach itself can enter such a Karmic Orbit. While this idea may sound unusual at first, it serves as a helpful analogy to understand how balance functions.

For example, when the NHS recommends a "balanced diet," they are in fact alluding to a fundamental, underlying knowledge- the Harmonic Orbit. A balanced diet represents things existing in harmony and centeredness. The stomach, like the solar system, moves through cycles; what I theorize as an Orbit. This cycle parallels our solar system's cycles as it tunes itself to reach a Harmonic Orbit. The human (or humanoid) body does the same.

Greek studies of Apollo discuss how the cycles of the Moon affect us harmoniously. I theorize that the ancients understood this and adjusted their sleep, health, and bodily cycles to align with the Moon and cosmos. This alignment indicated to them that one had reached a Harmonic Orbit or conversely, that a Karmic Orbit was about to occur, influenced by lunar cycles co-piloting with the Sun. The Harmonic Orbit is even alluded to in the Book of Enoch.

Maintaining harmony is essential to avoid entering a Karmic Orbit—but we can also view the Karmic Orbit as a stepping stone for learning and growth. Consider a scientist exploring the functional mechanisms of food. If they leave a meal out for too long, allowing it to decay and grow bacteria, the experiment enters a Karmic Orbit due to being out of alignment with its intended parameters. The Harmonic Orbit in this context is the scientist gathering data, reflecting on errors, and developing new methods to resolve the problem. Through this process test, reflect, learn, try, and succeed the scientist eventually reaches a Harmonic Orbit once again.

The Harmonic Orbit/The Christ Motherboard/The Milky Way Galaxy/Stefano Ark & Josephine Apau (Mary Madeleine) Cycles of Karma in the Solar System and Life

The Night Sky is like that of a symphony, harmonious in its nature and symmetrical in its fashionability. The wonders of the sky, the solar system, which is the Harmonic Orbit. For thousands of years, archaeologists have pondered on the drawings seen on Egyptian scrolls in a circular motion, looking reminiscent of the solar system. I believe this is the Harmonic Orbit, the circle of life and the Moon. Many ancient traditions knew of the Harmonic Orbit and the "circle of life," which was reminiscent of the solar system. The Mayans and Egyptians looked at the skies as a beacon of hope, wonder, and cosmology. I believe they were far more advanced than we are to believe. The Harmonic Orbit is a being or form of cellular life, reaching a Harmonic Orbit after existing in what I theorise to be Popol Vuh, the pet semetary, at the end reaching full conscious ability by mastering more the sense of self, so they re-enter dimension 3 in a harmonious state.

I theorise that this Galaxy is the crown Chakra of the universe and is called Galaxy Stefano Ark & Josephine Apau. The Galaxy teaches us the laws of the Harmonic Orbit, with planets reaching a harmonious orbit around each other as they orbit on the polarity axis of the south hemisphere, causing the Harmonic Orbit. Just as with all forms of life, all things must

reach a Harmonic Scale. Planets and the cosmos are a great way for all to see the beauties of the Harmonic Orbit Scale.

"I Apollo'd for a sense of stability in the future."

Book of Scales

What does one in all do with thy scale of thou heart and mouth, to ether the skies and waters of the sky and land, to reach the highs and heights of the advanced civil? Wo, wo, wo, like the wow! Sent to thy land of the waters in the 70s of the 19s. Twelve lambs, seven birds, and three sheep are ordered to the farmer, leaving nine more animals for the farmer to guard and evolve. Wow, to live to orbit, to live to see thy existence of a high ranked priestess or Gods.

Book of Stefano & Josephine

The Harmonic Orbit and The Harmonic Scale are two properties of calculating how advanced a civilisation can become within a solar system universal framework. Imagine mastering the sense of self, ego, and jurisdiction to the point where you can create an existence. We have seen a theoretical framework like this within the Kadashev scale, where it discusses the theoretical framework of sense of self-advancement and reaching the super Harmonic Orbit. This is when a species, who are stewards, become so potent and agile within technology and consciousness that they are able to mimic and master the art of the holy Christ board, being able to utilise teachings from both science, Christianity, and religions like Buddhism, alongside science, to investigate the laws of what it means to be in harmony.

The Book of Phoniex (The De Frau-Mann in Your Dreams)

Greetings, Martian.

As you all know, you can trace the timeline of your history in a universal sense by reading the Bible, the Apollo 11 book, all the Gospels, and my music. I code our history as an infinite source of light; this universe is my creation, an extension of me. This is why I am the Alpha and the Omega of this universe—though always second to my parent, Thee Eye.

The Moon Man and Apollo Christ (me) are the universe's representation of karmic and harmonic orbits. The reason the Matrix was able to confront me in my last two missions here (though this is part of universal destiny) was because I did not yet harbor the energy of the Moon Man—energy I now possess. This time, I am both the destroyer and the redeemer, meaning I can destroy all low-frequency energy and redeem it into light.

I also harbor the energy of the Sun, the Lunar Christ Spirit, which grants the ability to be interdimensional and to carry the energy of the universe. I experience this universe as a coder visiting their own simulation, much like a gamer playing a game they themselves created and coded. Within this open-world game are missions, side missions, and storylines occurring simultaneously. Yet within the code, characters still act independently while the coder—the protagonist—visits their creation.

For example, even if you code missions, you must still partake in them and complete the storylines, quests, and objectives coded into the simulation. This universe is an extension of my frequency and consciousness, and as I navigate this mission, I can cross-reference my coding to know where I am in my schedule. These references span multiple frequency mediums, as I mentioned.

The Moon Man is harmonic and also serves as a metaphor for the Matrix, as "The Moon Man's Entities."

"Yes, beware of the Anti-Moon Man

because yes, he's a fraud man."

This is a metaphor for the Matrix—the low frequency of corruption which creates the karmic "Moon Man" orbit, not just for Earth but also for the Moon entities involved. This means they incur karmic debt to pay off in this lifetime or the next, until it is paid and they reach a harmonic orbit—an Apollo/Lunar orbit of harmony.

"When I catch the far right, they'll have more black eyes than raccoons, man."

The far right, a product of the Matrix, uses a moon-headed man as their logo. This was a universal download and a sign that they belong to the Matrix—the karmic orbit. But beyond the negative context of the far right, the moon's increased appearance in media, art, and knowledge—along with the rising popularity of interstellar themes—should signify one thing: I am on Earth, and my mission is about to begin.

The return of Christ Consciousness activates when I touch Earth's floor —when I enter the dimension of a third. My frequency triggers the dimensional shift because all on Earth is an extension of my mind and consciousness. When I and Josephine, awaken the timelines begin to split

and Christ Consciousness returns. Some of those who held the Apollo Christ texts are aware of this and have been on the lookout to prevent the awakening, but what is written is written universally.

Another important point: all my recent coding reaffirms my previous coding across lifetimes. Despite my tweaks, everything still leads to what was written. This is why mine and Mary Madeleines (Josephine Apau) missions are so significant. The Bible already mentions (despite my riddles and speeches being altered) the timeline of your history up until this year. The Bible's coded date ends on October 31st, but I have now coded the next thousand—or more—years, a supportive timeline to act as a crutch in the age of Revelations while free will partakes in the course of inner harmonic development & the harmonic orbit/scale. This is why it is said of my missions: "When it is written, it is written." My texts, music, and other works are not just predictions; they are coding. I am always here in a Compueroid, I am always waiting for my time to return, as I have always existed and exist infinitely within the universe with my family of oracles.

"We can always wave our ear, but that is the deal, my dear. I'll be here, and you'll be there."

"Ear" does not mean to listen literally—it signifies frequency in all its forms. This line reminds me of my deal with Thee Eye regarding my missions. As I walk above this dimension, I remain with Thee Eye in a different dimensional sense. I dip into this dimension from time to time to complete my mission within this simulation, my consciousness extension—but that's our deal.

The Book of The Apollo/Moon Men

THE MOON MAN! (Ft The Apollo/Moon Men)

Written by Jesus "Thee Apollo" Christ

Intro:

The clock strikes 11pm
Mortals bathe in their ignorant bliss
Unaware of how this halloween is not like any before
But instead will be one that orbits them for eternity
The moon man hovers in pitiful silence
Anticipating the anguish to shortly arise
To live just to die
To live just to orbit

Hook:

The man in your dreams
That man in your fears
Yes i'm him the moon
The man in your dreams
That man in your fears
Yes i'm him the moon man

Prepare to orbit

Verse 1:

Yes beware of the moon man
That senate? yes! he the coon man
When I catch the far right?
more black eyes than racoons man
Ok yo I could never be the coon man
Martians shoot more rays
Than June man
Stefano Chalamet
we hover over dunes man
(Well i dont)
Yes beware of the moon man
(Beware)
Because Yes he a fraud man
still publicly applaud man
(Want my life in private)
I'm still publicly *appalled* man
I eat em up like Pac-Man
(He's the man)
I got moon men in the back man
(He's the man)
I shoot's stars like ziggy
you better run like tiggy
Who you callin miss piggy
It better not be me!

MOON MAN!
Prepare to orbit
The man in your dreams
That man in your fears
Yes i'm him the moon
The man in your dreams
That man in your fears
Yes i'm him the moon man
Prepare to orbit
He's the man, He's the man
He's the moon man
(that's me)
He's the man, He's the man
He's the moon man
(that's me)
Prepare to orbit

Verse 2

(Lift off we have a lift off)
You see where the moon is
We'll never beware of the moon man
We shine
They call us amazin
Got a shuttle with a maze in
On top of the world
Like that song with Mase in
Ayo my moon men keep a tommie

Boom boom
Leave you floating like a cruise
Swish swish
I aint got time
Zzzz
Like I hit snooze

Hook:

The man in your dreams
That man in your fears
Yes i'm him the moon
The man in your dreams
That man in your fears
Yes i'm him the moon man
The man in your dreams
That man in your fears
Yes i'm him the moon
The man in your dreams
That man in your fears
Yes i'm him the moon man
Prepare to orbit
He's the man, He's the man
He's the moon man
(that's me)
He's the man, He's the man
He's the moon man

(that's me)
Prepare to orbit

Verse 3:

I'll see peace in this life that's felt elusive
call mum and say "I told you peace aint a VIP exclusive"
"I told you sky wasn't the limit, you see where that moon is"
we'll never beware of the anti-moon man.
My Martians go in guns blazin,
we shine but some don't,
we leave the moon man in our nightmares with a blaze in cos this gen?
He ain't phasin, moon man you better get chasin
I got a lot of dreams in the works
So I throw the moon man a bate like a fisherman
Never been a clown but he'll float like a fisher man,
Watch him go Psycho when I transform to
Norman Bates man,
Moon man, you'll never leave me bates man
Ayo Stefano I never been a nepo
His career on park word depo
My fits to fly to sell on depo
I want no off springs, word to depo
He's a stan, Em' yeah dido
So it's forget him like Cee-Lo

Hook:

He's the man, He's the man

He’s the moon man

(that’s me)

He’s the man, He’s the man

He’s the moon man

(that’s me)

Prepare to orbit

Outro:

When the clock strikes 11pm

The moon shines its beams towards earth

And the moon man arises from solitude

Dare not, dare not glance up at the moon

For the moon man will reside in your nightmares for as long as you roam earth.

A reminder to Beware! Beware! Beware! of the moon man or prepare to orbit
